Sublimation Paper Guide

Product	Grammage	Overview	Description	Applications					
				Fashion	Sportswear	Home Decor	Soft Signage	Hard Substrates	Chromaluxe
SubliPrint Light	72	Light weight Quick drying Economical Cellulose coating Suitable for Textile printing	SubliPrint Light is a lower grammage paper suited to textile printing. The quick-dry coating makes the paper suitable for higher speed printers. The high transfer rate enables the ink to leave the paper quicker, meaning less ink is required, creating a cost saving and reducing the chance of cockling.	✓	●	✓	●	✗	✗
SubliPrint Universal	95	Medium weight Instant drying Multi-purpose Hybrid coating Suitable for Textile & Hard Substrate printing	SubliPrint Universal is a medium grammage paper suited to both textile and hard substrate applications. The heavier base paper allows more ink to be held without cockling, suiting hard substrates, blackout & heavier textiles.	✓	●	✓	✓	✓	✗
SubliPrint Heavy	110	Medium-Heavy weight Instant drying Multi-Purpose Clay coating Suitable for Textile & Hard Substrate printing	SubliPrint Heavy is a higher grammage, multi-purpose paper suited to more products requiring more ink, such as hard substrates & ChromaLuxe.	●	●	●	●	✓	✓
SubliPrint Thermo	92	Medium weight Quick drying Thermal adhesive Cellulose coating Suitable for Textile Printing	SubliPrint Thermo is a medium grammage paper with a thermally activated adhesive that acts to eliminate 'ghosting' when transferring onto stretchy fabrics. The thermal adhesive is not recommended for hard substrates and loose fibre textiles.	●	✓	●	●	✗	✗
Beaver TexPrint XPHR	105	Medium-Heavy weight Instant drying Multi-Purpose Clay coating Suitable for Textile & Hard Substrate printing ChromaLuxe approved	Beaver TexPrint XPHR is available in both medium-heavy and heavy grammages suitable for products requiring more ink, such as hard substrates, blackout textiles & ChromaLuxe. The heavier 140gsm variant is suited to producing large areas of block colour on ChromaLuxe panels and sheetstock.	●	●	●	●	✓	✓
	140	Heavy weight Instant drying Multi-Purpose Clay coating Suitable for Textile & Hard Substrate printing ChromaLuxe approved		●	●	●	●	✓	✓
